One hundred forty-sixth

COMMENCEMENT

SATURDAY, THE ELEVENTH OF MAY
TWO THOUSAND TWENTY-FOUR

THE STAR-SPANGLED BANNER

AMERICAN NATIONAL ANTHEM

BY FRANCIS SCOTT KEY, 1814

Oh, say can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars thru the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?

And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.

Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

HONORARY DEGREE RECIPIENT

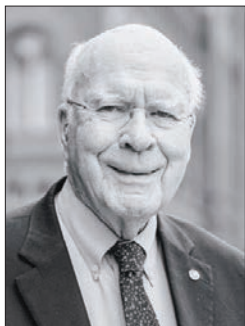

Marcelle Leahy

Doctor of Public Service, Honoris Causa

Marcelle Leahy is the behind-the-scenes support to the former most-senior U.S. Senator Patrick Leahy. Marcelle Leahy has served as the Senator's most trusted confidante as they have advocated for justice, economic and educational opportunity, health care access and equality, and other pressing concerns of our time. A registered nurse, Mrs. Leahy has contributed her skills to medical organizations in Vermont and Virginia, serving on several boards, including the Vermont Visiting Nurse Association, the Vermont Nursing Initiatives Project, and the UVM College of Nursing and Health Sciences Board of Advisors. As a former honorary chair of the Vermont

National Guard Family Readiness and Support Program, she offered leadership and inspiration to a cadre of volunteers helping National Guard member families before, during, and following deployment. Transforming personal experience into public effort, Mrs. Leahy is also a strong supporter of cancer research and of services to children with cancer. She currently serves on the board of the Prevent Cancer Foundation and has been on the board of Tracy's Kids—a nonprofit organization that provides art therapy to children with cancer and their siblings—since its inception in 1991. She also previously served as a longtime board member of the Washington National Opera and the Meridian International Center.

HONORARY DEGREE RECIPIENT

Senator Patrick Leahy
Doctor of Public Service, Honoris Causa

Senator Patrick J. Leahy is the longest-serving U.S. Senator in Vermont history and the third longest-serving U.S. Senator in American history, casting nearly 16,950 votes in his Senate career. Sen. Leahy represented Vermont over eight terms in the Senate and retired in January 2023 after 48 years of service. He served as President Pro Tempore of the Senate twice, from 2012–2015 and from 2021–2023. He chaired three major committees—Appropriations, Judiciary, and Agriculture—during a tenure that began in 1975. Prior to becoming a Senator, he served multiple terms as State’s Attorney, beginning in 1966.

Sen. Leahy’s legacy in the Senate is defined largely by his support for agriculture, environmental protection, technology, and health care—much of which benefited Vermont directly. His introduction of small-state minimums in budget bills effectively appropriated billions of dollars of additional funding to his home state.

Sen. Leahy has long been regarded as the Senate’s foremost leader on human rights issues in U.S. foreign policy. Some of his crowning achievements include The Leahy Law, which bars U.S. foreign aid support to units of foreign militaries that violate the rights of their citizens. He was the lead author of legislation banning the export of antipersonnel landmines, which was the impetus for an international treaty to ban them. He established the Leahy War Victims Fund, which is used by USAID throughout the world to help civilians maimed by landmines and other weapons of war.

Sen. Leahy was a longtime advocate for improving relations with Cuba and Vietnam, working with Democratic and Republican administrations to change the Cold War policies toward Cuba as well as restore diplomatic relations and support post-war legacy programs in Vietnam.

As a chair of the Senate Agriculture Committee, he brought many ‘born-in-Vermont’ ideas into nationwide policy and programs. Leahy has long been recognized as the ‘father’ of the national organic standards and labeling program, and he was a leader in the work to create and fund the Farm to School program. During his time in the Senate, he secured annual funding for Lake Champlain, supported the Vermont dairy industry, and added more than 140 acres to the Green Mountain National Forest.

Sen. Leahy was born and raised in Montpelier, Vermont, where his parents operated a printing press business. A 1961 graduate of St. Michael’s College in Colchester, and of the Georgetown University Law Center (1964), he has been married to Marcelle Pomerleau Leahy, a native of Newport, Vermont, and a Registered Surgical Nurse, for nearly 60 years. Together, they raised three children in both Vermont and Washington, D.C., and have throughout maintained the Leahy family home, a tree farm in Middlesex, Vermont. An avid and accomplished photographer, Leahy also has appeared in major motion pictures featuring his favorite superhero, Batman.

Sen. Leahy currently holds an appointment as President’s Distinguished Fellow at the University of Vermont.

Purple and Gold cords identify members of Delta Mu Delta International Honor Society for Stiller School of Business students who rank in the top 20% of their class and have a 3.5 cumulative GPA or higher.

Double Royal Blue and Royal Red cords represent a member of the Student Government Association who served as a representative, assistant to the cabinet, and/or cabinet member.

Royal Blue and White cords represent graduating students who self-identify as the first in their family to receive a college degree.

Teal cords indicate exemplary students who have earned Tutor certification from the College Reading and Learning Association, and have used their content expertise and teaching experience to provide academic support to Champlain College students.

Navy Blue cords represent a member of the Public Relations Student Society of America (PRSSA)

Light Purple and *Green* cords represent graduating members of our Student Chapter of Women in Cybersecurity.

Pink cords represent graduating members of Stiller Women in Business.

SPYGLASS

In 2009, a statue of Samuel de Champlain, the founder of New France and Champlain College's namesake, was placed between the IDX Student Life Center and Alumni Auditorium. For the past fifteen years, students and families have passed the statue of de Champlain looking through a spyglass toward the lake.

After each student receives their diploma from the President, the graduate will be handed a replica of a spyglass. Inscribed on the spyglass is Champlain's Latin motto, "Audeamus," or "Let Us Dare."

We hope that the spyglass will be a token of each student's college achievements that they can display in their workplace. The spyglass will also serve as a way for others to recognize a Champlain alumnus or alumna in the community outside the College.

ClearLake Furniture in Ludlow, Vermont, designed the cherry spyglass, which the Student Government Association funded for the Class of 2024.

HONORARY DEGREE RECIPIENT

Lynn Dohm

Doctor of Science and Technology, Honoris Causa

Lynn Dohm’s area of focus is a critical aspect of cybersecurity: people.

With over 25 years of organizational and leadership experience, Lynn specializes in partnership building, advocacy, and strategy. As Executive Director of Women in CyberSecurity (WiCyS), she is energized by the industry and community partnerships—both well-established and nascent—that WiCyS has fostered through its initiatives, training programs, partnerships, and recruitment efforts. Her leadership has established WiCyS as a leading model for how a collaborative, multi-organizational approach can strengthen the cybersecurity workforce.

Lynn has held various roles in cybersecurity workforce enterprises, actively participating in grant-funded programs and nonprofits that help bridge the gap of the critical cybersecurity workforce shortage. Prior to WiCyS, Lynn contributed to launching the Community College Cyber Summit (3CS) and worked in various roles within the National Cybersecurity Training & Education Center (NCyTE), Center for Systems Security and Information Assurance (CSSIA), Cybersecurity Competition Federation (CyberFed), National CyberWatch Center, and National Cyber League, among others.

Driven by a passion for harnessing diverse mindsets, skill sets, and perspectives to solve problems, Lynn leads discussion on inclusion, equity and allyship. She has been extensively recognized for her expertise and commitment to improving accessibility and opportunities in cybersecurity, and enhancing the recruitment, retention, and advancement of women in the field.

Lynn’s efforts have garnered numerous awards and accolades, including Future Con’s Award of Excellence 2024, being named a Top 25 cybersecurity leader of 2024 by CS Hub, receiving the People’s Choice award for Cybersecurity Woman of the Year, the “Light that Shines” award from EmpoWE-R Women of Infosec, and being listed in the Top 100 Women in Cybersecurity by *Cyber Defense Magazine*. Recently, she was also appointed to the Cloud Security Alliance AI Safety Initiative Non-Profit Leadership Council.

An accomplished keynote presenter, panelist, and moderator for international conferences, events, and organizations, Lynn participated in over 50 speaking engagements in 2023, raising awareness about the importance of bolstering the cybersecurity workforce with people from diverse walks of life. Additionally, Lynn is a proud contributor to the books *The Privacy Leader Compass* and *Measuring Inclusion: A case study in Cybersecurity*, served on the International Judging Panel for the IFSEC Global “Top Influencers & Fire,” is an advisory board member for Women in Cybersecurity—Beyond Borders, and an inaugural member of the (ISC)² Diversity, Equity, and Inclusion Task Force.

CHAMPLAIN COLLEGE THEN & NOW

Champlain College began in downtown Burlington in 1878 as the Burlington Collegiate Institute, a for-profit commercial college founded by educator George W. Thompson. During the next eighty years, the school changed ownership and names several times, becoming Champlain College in 1958.

In the late 1950s and 1960s, Champlain transitioned to a nonprofit junior college offering associate degrees in Business, Accounting, and Secretarial Science, as well as adult continuing education programs. The College moved to the Hill Section in 1958, purchasing the Victorian-era Freeman Hall to serve as its new academic and administrative headquarters.

Champlain College broadened and diversified its academic programs in the 1970s and 1980s, rolling out career-oriented associate degrees and certificate programs in Business, Education, Human Services, Hospitality and more for traditional undergraduates and adult learners. As its enrollment increased, the College acquired additional Victorian homes in the Hill Section and constructed two new academic buildings: Joyce Learning Center (1972) and the Hauke Family Campus Center (1989).

The College transformed itself again in the 1990s and 2000s, transitioning to bachelor's and master's degrees and distance learning programs. Its new baccalaureate programs included Multimedia and Graphic Design, Website Development and Management, and e-business and Commerce. Champlain's Game Studio began in 2004 with a major in Electronic Games & Interactive Development. Its distinctive Core liberal arts curriculum and InSight personal finance and career positioning program, both established in 2008, remain key components of its multidimensional undergraduate education.

In 1993, Champlain launched one of the country's first online academic programs, offering full distance learning as well as hybrid online and in-person programs for adult students. After years of steady growth, Champlain College Online experienced a dramatic expansion in enrollment in its associate, bachelor's, graduate, and certificate programs following the 2013 introduction of truED, a pathbreaking education partnership with the U.S. Office of Personnel Management.

Champlain's campus has also grown considerably over time. In the 1990s and 2000s, Champlain constructed the Robert E. and Holly D. Miller Information Commons (1998), the S.D. Ireland Family Center for Global Business & Technology (2004), and the IDX Student Life Center (2005). In the 2010s, the College opened The Roger H. Perry Welcome & Admissions Center (2010), Miller Center at Lakeside (2011), Center for Communication & Creative Media (2015), and five new residence halls. Champlain established its study-abroad campuses in Montreal, Canada, and Dublin, Ireland, in 2007 and 2008.

Champlain College now enrolls more than 3,200 undergraduate and 550 graduate students. In the last decade, Champlain has introduced new undergraduate programs, including Cybersecurity, Creative Media, Interaction Design, Filmmaking, and Data Science; launched its Degree Design Lab and Social Impact Scholar program; and established graduate programs in Digital Forensic Science, Healthcare Administration, and Information Technology, among others.

In 2021, Champlain College's Board of Trustees approved R/Evolutionary Champlain 2030, a strategic plan capitalizing on the College's strength as a supportive learning community that advances society by delivering uniquely future-focused academic programs, transformative hands-on experiences, and meaningful connections and collaborations that engage the passions of our students to create a better world. Champlain's size and stature have grown significantly since its inception in 1878, but its central mission of providing a radically pragmatic, career-focused education has remained remarkably consistent.

ACADEMIC REGALIA

Much of the regalia in today's ceremony originated in medieval European universities, such as Oxford. Since most of the professors in that age were church clerics, they wore heavy, rather austere, long robes with hoods. This manner of dress not only reflected their vows of poverty but also kept them warm in the drafty university halls of the period. As time passed, these hooded robes evolved into elaborate vestments that more closely resembled the colorful, symbolic fashions of the royal courts. These vestments were often made of colored silks with heavy embroidery. Different styles of hoods (which were now entirely symbolic and no longer designed to cover the head), mortars (a stylized cap popular at the time), and cassock-like gowns displayed the loyalties, disciplines, and levels of achievement of the wearer.

As early as the 1700s, academic costumes found their way to America at the University of Pennsylvania and Columbia University (then King's College), and perhaps at a few other colleges founded in colonial times. Toward the end of the nineteenth century, Gardner Cotrell Leonard, of Albany, New York, undertook the stabilization of the costume's symbolism after his family's firm designed special regalia for Williams College in Western Massachusetts. The American Council on Education has updated the academic costume code three times since then, most recently in 1986. For all colleges and universities that adhere to the Intercollegiate Code, the general descriptions are the same, although certain institutions have made slight modifications when permissible.

The color of the gown is commonly black with no trim for the bachelor's or the master's degree. The doctor's gown is faced down the front with velvet, with three bars of the same across the sleeves, and may be worn open or closed. Rarely, the trim of the doctor's gown can conform to the color code for the edgings of hoods and the tassels of caps. Ordinarily, the velvet is either black or dark blue, since the most common degree title is doctor of philosophy. The color code is the same for all degrees, although the binding or edging of the hood varies in width: two inches, three inches, and five inches for the bachelor's, master's, and doctor's degrees, respectively. Similarly, the hoods vary in length. For example, golden-yellow velvet—five inches in width, bound to a black thirty-six-inch hood with panels on each side and lined with satin colors—displays a doctorate in a field of science, with the satin lining indicating the colors of the particular college or university that awarded the degree.

The bachelor's degree has pointed sleeves and the gown hangs closed. The hood is optional, although if worn, it should conform strictly to the color and design code. The master's degree is indicated by an oblong sleeve, open at the wrist, with the base hanging and square-cut. The gown may be worn open or closed, according to the design; the hood is thirty inches, without side panels, and is bound with three-inch velvet.

Tassels for caps may be black or may conform to the color code, except that gold is most often worn for the doctor's degree. Members of the governing body of a college or university—and they only, whatever degrees they hold—are entitled to wear doctor's gowns, but their hoods may be only those of degrees actually held by the wearers or especially designed by the institution. The chief officer and the chief marshal may wear specifically designed costumes as approved by the institution.

INTERNATIONAL RECOGNITION

Champlain College includes global awareness as one of the core competencies in each of its undergraduate academic programs. To acquaint students with other cultures, the College operates international campuses in Dublin, Ireland, and Montreal, Canada. Flags for both of these countries are represented.

Our curriculum is designed to allow on-campus undergraduate students the opportunity to experience a semester abroad. These students have each been given a small medallion with the Champlain College seal to attach to their gowns.

At Champlain, both on campus and online, we have a number of students from other countries who choose to pursue their higher education with us. The flags you see displayed today around the room represent countries, other than the United States, from which our graduates come. The seven countries represented are:

Belarus	Brazil	Canada
Cayman Islands	China	Ireland
Israel	Nigeria	Netherlands
Puerto Rico	Hong Kong	

THE MACE

The College Mace was commissioned by the late Edward P. Lyman Sr., former Vice President for Development. It is carried by the College Marshal, who leads the procession at Commencement and other formal academic occasions.

The Presidential Mace is a gift from William G. Post Jr., former Chair of the Board of Trustees, who designed and crafted it. It is carried by the President of the Faculty Senate, who leads the President of the College to the platform.

CHAMPLAIN COLLEGE

Welcome to Commencement 2024

Our online Commencement program names and celebrates all members of the Class of 2024, as well as graduates of the Champlain College Online Class of 2024. **Congratulations to all!**

Want to see your photo featured on the big screen? As you wait for the ceremony to begin, post a photo of your graduate or a congratulatory message to social media using the hashtag #ChampGrad or scan the QR code below.

In our efforts to become a more environmentally sustainable campus and community, Commencement 2024 includes practices such as using gowns made from recycled plastic fibers and reducing waste through recycling and composting whenever possible. For more information about our sustainability practices on campus, go to champlain.edu/sustain.
